David Giménez Rodríguez De Rivera

Senior Frontend Engineer - Angular, SSR and Frontend Architecture

PROFILE

Senior Frontend Engineer in Madrid with over 6 years of experience building high-performance Angular applications. Specialized in SSR, prerendering, scalable frontend architecture, headless CMS integration and Docker/Kubernetes deployments. Focused on turning product, SEO and performance requirements into maintainable solutions for real teams.

EXPERIENCE

Senior Frontend Engineer (Angular, SSR)

June 2019 - Present

Grupo Orenes

- Angular architectures with SSR and prerendering for multi-brand, multilingual and SEO-oriented applications.
 - Headless CMS integration with dynamic routes, multilingual models, caching and controlled invalidation.
 - Build, prerender and deployment automation with Node.js, Docker, Kubernetes and reproducible configuration.
 - Performance, TTFB, SSR stability and Developer Experience improvements for frontend teams.
- Angular, TypeScript, SSR, Prerender, Node.js, Docker, Kubernetes, Strapi

Frontend Web Developer

March 2019 - June 2019

R. Franco Digital

- Native Android applications with Java, REST APIs, SQLite and MySQL.
 - Responsive web interface support with HTML, CSS, JavaScript and Bootstrap in an agile workflow.
- Java, Android, REST APIs, SQLite, MySQL, HTML, CSS, JavaScript

SELECTED PROJECTS

Distributed Angular Prerendering System

Prerendering architecture to serve indexable HTML, reduce SSR load and improve deployments in multi-brand applications.

Event-driven Prerender Queue

CMS-connected workflow to regenerate affected routes without full red deploys or manual route tracking.

Headless CMS Dynamic Routing

Angular routing model driven by content, multilingual slugs, caching and per-page metadata.

EDUCATION

Higher Level DAM - Multiplatform Application Development

U-Tad Centro Universitario de Tecnología y Arte Digital | 2017 - 2019
Programming, systems, databases, data access, interfaces, mobile development, services/processes and enterprise systems.

High School Diploma in Science and Technology

IES San Isidro | 2013 - 2016
Foundation in mathematics, analytical thinking and problem solving.
